Please see link for further information. <http://bit.ly/2BKf8JT>

If you have information regarding these, or any other crime, please call Warwickshire Police on **101**.

As nights get darker it is increasingly difficult for motorists to see other road users. Cyclists and pedestrians are being encouraged to think about their presence on the roads and wear high visibility clothing and reflective material, to ensure they can be seen. Pedestrians are reminded to always use pedestrian crossings where possible and cyclists should ensure their bike is in good working order and carries front and rear lights.

## Wellesbourne SNT Team

PCSO 6118 Sarah Bailey  
PCSO 6314 Lewis Barber  
PC 1681 Purcell

## Home and garden security

### Buildings

**Intruder alarms, security lighting, doors, windows and access control systems**

### Intruder alarms

Alarms are the best deterrent against burglary

### Security lighting

Good lighting can be an excellent deterrent against burglary, but the right lighting has to fit the right circumstances

### Windows and patio doors

Most newer patio doors have multi-locking mechanisms, but extra surface mounted patio locks and an anti-lift device to prevent them being lifted from their runners can be added to older doors to provide additional security and reduce the leverage points

### Doors and access control systems

If your front, rear and side doors are insecure, so is your home. It is also important to ensure that the frame is strong and well fixed, not weak or rotten.
